Knowledges

Html5/Semantic Markup, Responsive
Web Design, Css3/Flex-box,
Sass/BEM, Command line, GIT/NPM,
UML, OOP, JavaScript/ES5/ES6+,
Bootstrap, Webpack, Babel, React,
React-Router, Redux, Redux-Toolkit,
Redux-Saga, TypeScript, Scrum, Jira,
Adobe Photoshop, Figma, Zeplin, Swagger.

Personal Skills

Motivation. Energetic.
Team player.
Confident, friendly and
easy to get along with.
Passionate about doing a good job.
Handling criticism well and learning from it.

Summary

I am a highly motivated and ambitious personality with a strong communication skills and learning abilities. I have started to play with front-end development as a self-taught and fall in love with it. I started to teach myself how to code,I completed a big amount of online courses, read blog posts and have implemented a variety of personal projects. Working on projects with others helped me to become a good team player. I have gained the ability to show my initiative, problem-solving and deliver work effectively and accurately to tight deadlines.

Experience

SoftServe trainee (September 2020 - Present).

Products-List
(https://github.com/Valeriia-Rez/Products_List).

Project Description: CRUD web app built in React/Typescript using a custom state hook to store data on the front end and json-server as a fake API for keeping data on the backend.
Customer: SoftServe IT Academy
Project Role: Trainee WEB UI Engineer.
Responsibilities: User interface design, planning and architecture of structure components and application development using the latest and modern technologies.
Tools & Technologies: React, React Hooks, React-Router, TypeScript, Sass, BEM.

Movies-database-project
(https://github.com/Valeriia-Rez/ITA28.09/tree/main/Valeriia/Movies_database_project).

Project Description: Movie database project is multipage application built in React/TypeScript using Redux state management to store data. Users can search movie by title or genre and sort them by release-date or rating. List of movies renders using Lazy Loading approach with React-Infinite-Scroll.
Customer: SoftServe IT Academy
Project Role: Trainee WEB UI Engineer.
Responsibilities: User interface design, planning and architecture of structure components and application development using the latest and modern technologies. Maintain and fix bugs.
Tools & Technologies: React, React Hooks, React-Router, Redux, Redux-Saga, Redux-Toolkit, TypeScript, Swagger, Sass, BEM.

Simple-Auth-Form
(https://github.com/Valeriia-Rez/Simple-Auth-Form).

Project Description: Mini-authentication form application with ability to sign-in, sign-up, sign-out. Build in React/Redux for learning purposes.
Customer: SoftServe IT Academy
Project Role: Trainee WEB UI Engineer.
Responsibilities: Planning and development.
Tools & Technologies: React, React-Router, Redux, Sass.

Game-project

(https://github.com/Valeriia-Rez/Game-Project-TS).
Project Description: Game project initially created architecture with UML diagrams. Developed in JS/ES/ES6+/TypeScript. No UI for this. But it works only in terminal.
Project Role: Trainee WEB UI Engineer.
Responsibilities: Create UML-diagrams, write code in JS/ES/ES6+/TypeScript.
Customer: IT Academy SoftServe
Tools & Technologies: JS/ES5/ES6+, TypeScript, UML, OOP.

Landing-Page-For-Freehand

(https://valeriia-rez.github.io/Landing-Page-For-Freehand/).
Project Description: Landing Page For Freehand
Customer: IT Academy SoftServe
Project Role: Trainee WEB UI Engineer.
Responsibilities: Converting web design from Zeplin into pixel perfect responsive website.
Tools & Technologies: HTML5, Sass, BEM.

EPAM Training (December 2019 - April 2020)

During the training period I improved my knowledge in such topics - HTML, CSS, Preprocessors, CSS Layouts, Responsive Design, JS (control flow, functions, data types, scope & context), DOM.

E-Commerce-Website

(https://valeriia-rez.github.io/-E-Commerce-Website/).
Project Description: Users can see products, choose them by size and color and add them to the shopping bag. If users click on each product item it redirects them to a dynamically generated item page by getting its data from clicked item id. When users click the "add to bag" button, it adds these items to the local storage, then populates their shopping bag area with total price and product count data and redirects them to the shopping bag page.
Customer: EPAM
Project Role: Trainee Front-end developer.
Responsibilities: Converting web design from Figma into pixel perfect website, using mock data from JSON file.
Tools & Technologies: HTML5, CSS3, JS, Babel.

Movies-Searcher

(https://valeriia-rez.github.io/Movies-Searcher/)
Project Description: This is a movie search app powered by MovieDB. Users can see films divided by popular, the highest rated, upcoming and now playing movies. By choosing one of them will show all the movies related to the selected section.
Customer: Personal project
Project Role: Trainee Front-end developer.
Responsibilities: Creating simple design, making project architecture, building and developing film searching web application (mobile first).

Tools & Technologies: HTML5, Sass, Bootstrap, JS, Webpack, Babel.

Weather-App

(https://valeriia-rez.github.io/Weather-App/).
Project Description: Weather App built with plain JS (ES2016&ES2017). Users can see the weather by their geolocation or by city name. There are two options to display the temperature unit (Fahrenheit and Celsius). By entering the city name it will trigger auto city suggestions. Depending on the temperature UI/ background image changes.
Customer: Personal project
Project Role: Trainee Front-end developer.
Responsibilities: Creating simple design, making project architecture, building and developing responsive web application (mobile first). Using open source Weather API, working with HTML geolocation API.
Tools & Technologies: Webpack, Babel and webpack-dev-server to compile and serve.

Portfolio - https://valeriia-rez.github.io/Portfolio/
(all personal projects you can find in my portfolio).

Additional education: Udemy, Coursehunter.

Lead Economist Ukrsibbank (2016 - Present). Kharkiv Region, Ukraine.

- Re-conducting and primary identification of Individuals,individuals-entrepreneurs and legal entities.
- Opening and closing accounts for Individuals,individuals-entrepreneurs and legal entities.

Education

Ukrainian Academy Of Banking Of The National Bank of Ukraine. Bachelor's degree, banking(2004-2009).

Language

English - B1
